

## Question

---

What if software could automate PC disposition processes such as; disk erasure, hardware audit, Operation System (OS) license recovery, and diagnostics... all the processes that generate surprisingly high internal or third party disposal fees?

Venderis is a unique software solution suite that addresses critical problems facing large corporations and organizations worldwide. Developed from a decade of experience working with corporate end users and used computer remarketers, Venderis represents the best of breed in a new technology area -- End-of-life IT Asset Preparation -- through a patent pending process.

## Software

---

Venderis Solution Suite automates multiple functions that mitigate risk, increase resale value and reduce overall end-of-life costs for large organizations refreshing their PC technology:

1. Hardware Audit
2. Diagnostics
3. Disk Erasure
4. OS Restoration

Venderis Solution Suite works on LANs, WANs and large networks by specifying an IP or MAC address range for use across the enterprise.

## Problems Solved

---

- Onsite Data Erasure
  - \* Eliminate risk, liability from the exposure of sensitive data to the public domain
- Automated Data Erasure
  - \* Erase 10 or 10,000 hard drives simultaneously (DoD 5220.22M standard)
- Automated OS restoration
  - \* Restore Windows™ to 10 or 10,000 systems simultaneously
- Automated Hardware Audit and Diagnostics
  - \* Perform Audits and Diagnostics for 10 or 10,000 systems simultaneously
- HIPAA, Gramm-Leach-Bliley, California SB 1386 compliance
  - \* Ensure compliance
- Green compliance
  - \* Keep systems out of landfills, primarily through valid OS Restoration
- Disposition fees
  - \* Eliminate third-party fees and internal charge-backs

## Disposal Costs

According to Gartner Group estimates, the average on-site wipe/destruction cost approximates \$130 per PC. Companies can eliminate these costs while increasing resale value, by utilizing the Venderis Solution Suite.

Venderis Features	Included	Savings/Incr Value
<b>Network Discovery</b>		
Discovers hardware models, parts, serials, OS details	Yes	15-100% per system
Discovers Windows license keys	Yes	
<b>Hardware Diagnostic Tests</b>		
Performs SMART test on hard drives	Yes	15-45% per system
Performs battery test on laptops	Yes	
<b>Hard Drive Backup</b>		
Performs full or partial backup to network storage	Yes	
<b>Hard Drive Image Transfer</b>		
Migration of user data to another system	Yes	
<b>System Clean and Restore</b>		
Erases individual files to Department of Defense standard	Yes	
Restores system to original condition/settings	Yes	
<b>Hard Drive Sanitization</b>		
Sanitizes all hard drives on Windows and Linux platforms	Yes	\$25-\$150 per system
Performs sanitization compliant with DOD standards	Yes	
Allows for repeated overwrite	Yes	
Prints certificate of data destruction	Yes	
<b>OS Restoration</b>		
Restores Windows 2000 and XP OS to sanitized drives	Yes	\$25-\$225 per system
<b>Barcode Assignment</b>		
Assigns barcodes for systems and peripherals for tracking	Yes
