

Seven Advantages Over Leading Competitive Software

1. Venderis is enterprise-level software designed for on-site usage. Operating across any corporate WAN or LAN, Venderis can simultaneously erase 10 or 10,000 PC's at a time, with no additional user interaction required.
2. Venderis combines all the features of the leading erasure applications into one single solution.
3. Venderis offers features not included in any other erasure application:
 - a. Remote erasure
 - b. HDD Backup – in case of accidental erasure
 - c. OS Restoration – capturing Windows licenses
 - d. Barcode printing
4. Venderis can be distributed via enterprise software distribution platforms such as Microsoft SMS and BMC Remedy, providing easy implementation across various platforms. No change in user or firewall settings is required!
5. Venderis is 100% safe, providing the added security of running only within a corporate network.
6. Venderis revolutionizes the value equation for PC retirement by:
 - a. Automating enterprise processes
 - b. Eliminating internal costs or third-party fees
 - c. Restoring Windows Operating Systems to PCs
7. Venderis results in increased resale value of \$25 to \$225 per system.
